PETROLEUM'S ROYALTY CLAIM OF KELANTAN STATE

I had been assigned to do a research on the above subject by my supervisor. I had done numbers of research pertaining to the subject from various resources. The objective of the research was to discover the calculation of the royalty and what base did the calculation was made. I have learnt how to keep any information or discovery of this subject private from any colleague since this subject is very confidential. I have made a presentation about my findings pertaining to the subject in front of the directors of the department. As a result, some of their wonders had been answered based on my findings.
