Dear Sir/Madam,

I am Khairunisa Binti Kamarudin, a fresh graduate of Mechanical and Manufacturing Engineering from UNIMAS. I have completed my studies with an overall CGPA of 3.43. I am interested to apply for the position of project engineer that available at your company.

I had my internship at Miri Crude Oil Terminal (MCOT) as a member of their mechanical and operation team. I was trained and exposed to a real site job of mechanical engineering such as troubleshooting, installation, preventive maintenance, several mechanical issues and learnt the MCOT's process flow too. Although, I have no solid working experience of 2 to 5 years in this engineering field, but I need a platform where I could gain more knowledge or practical and of course it will be a great honour for me to have this opportunity.

Above else, as an Engineering student majoring in Mechanical and Manufacturing, I have equipped with the necessary knowledge of manufacturing systems, instrumentation and control, process control system and quality control and reliability. I also have a great interest in the field of engineering and a determination to perform well while working.

I attach herewith my resume for you to better assess my qualifications. I look forward for your reply and it will be a pleasure for me to attend an interview with you at your convenient time.

Thank you for your consideration.

Sincerely,

Khairunisa Binti Kamarudin
