Dear Mr / Mrs,

I am writing to enquire if you have any vacancies in your company that is related to my study field, which is Biomedical Science. I enclose my CV for your information.

As you can see, I had extensive vacation work experience in Hospital Pulau Pinang, giving me varied skills related to pathology industry and the ability to work with different types of people. I believe I could fit easily into your team.

The nature of my degree course has prepared me for related position, such as Research Assistant, Medical Record Assistant, Science Officer and Medical Laboratory Technologist. It involved a great deal of independent research, requiring initiative, self-motivation and a wide range of skills.

I am a conscientious person who works hard and pays attention to detail. I'm flexible, quick to pick up new skills and eager to learn from others. I also have lots of ideas and enthusiasm. I'm keen to work for a company with a great reputation and high profile such as your company.

I have excellent references and would be delighted to discuss any possible vacancy with you at your convenience. In case you do not have any suitable openings at the moment, I would be grateful if you would keep my CV on file for any future possibilities.

**Siti Arifah Fasihah
