Dear Sir,

Subject:

APPLICATION FOR SL1M - MECHANICAL ENGINEER

The above matter refers.

2. I am recent graduate from University of Kuala Lumpur – Malaysian Spanish Institute in the field of Bachelor of Engineering Technology (Hons.) in Mechanical. I graduated my studies with 3.64 CGPA. I am currently enrolled as Team Leader at SK Fresh Supermarket Pokok Sena, Kedah.
3. With all respect, I would like to apply for SL1M - Mechanical Engineer position or any relevant position at your company.
4. For your information, previously I undergo 5 months internship training at Perodua Manufacturing Sdn. Bhd. under section of Production Support Department – Quality Residence Engineering. During my intern training, I prepared rear exterior fitting Checking Fixture specification for D20N. D20N is a new vehicle model (2017) of Perodua. I also managed to solve quality defect issue of Myvi door trim's clip detached which occurred in Perodua for about 5 years. In addition, I also proposed new Kanban trolley design for the door trim usage. Thus, the tasks I handled was equivalent as an engineer.
5. I may not have enough experiences, but with such achievement I obtained within 5 months internship at Perodua Manufacturing Sdn Bhd and trustworthy I gained to be a Team Leader in just a month at SK Fresh Supermarket Pokok Sena, I believed that I am full of potential to be develop.
6. I would like to extend my gratitude for your kind consideration and looking forward to discuss about this application in future.

Thank you.

Best regards,

MOHAMAD FITRI BIN MOHAMAD FOZI
