Kedah Medical Centre,

Pumpong, 05250 Alor Setar,

Kedah Darul Aman.

To whom it may concern,

**Looking forward to contribute to Kedah Medical Centre**

Good day, I'm Nur Syahirah, and as the title refers, I would like to state my intention to be part of the team of Kedah Medical Centre (KMC), contributing to the successes of the company, with the skills, experience and insights that I have, as a fresh graduate from USM Penang. As a fresh graduate of Biological Science (graduating in October 2016), it has been my passion to join KMC team, possibly as a PR & Marketing Executive SLIM trainer.

2. The interest to join KMC came to birth as I screen through potential opportunities to start off my career in a long term basis, and through my research online, I find KMC to be the best platform for me to build my career, while contributing to something larger. Sites that caught my desire would be Marketing division which I could say, portrayed "creativity" and "responsibility", which I believe represents the very best commitment of the teams in KMC. With my experience and skills, I believe that I can contribute to KMC through my leadership skills, research skills, knowledge (specialised in science biology), and problem solving skills, which I believe would be vital in ensuring consistent efficiency in KMC upon joining the team

3. As a fresh graduate, I personally aspire to contribute back to life by solving problems in the science and healthcare industry. Such aspiration may seem too big, but I believe that it is very much achievable, for example, by being the Team Lead within KMC, as a PR & Marketing Executive to help solve a national health issue as KMC vision to be the preferred provider in healthcare services. I hope that by becoming one of the SLIM- training under KMC will give me a new valuable knowledge to become a motivate worker as one of KMC's objective to enhance career development through training and education.

I sincerely hope that we could have a quick meet up for a discussion on how I can contribute to KMC, I hope to be part of the teams in KMC contributing to the successes of the company as a whole.

Thanks!

Nur Syahirah,
