Dear Sir/Madam,

**APPLICATION FOR THE SL1M-WATER SYSTEM DESIGNER**

I am writing to apply for the SL1M – Water System Designer in your company, I am pursuing a Bachelor of Engineering Technology (Hons) in Instrumentation and Control Engineering at University Kuala Lumpur Malaysian Institute of Industrial Technologies (UniKL Mitec) with an expected completion date of October 2017. I believe that my professional experience in the field of ICE especially in measurement and control of process variables to design systems with desired behaviors in manufacturing area. UniKL Mitec have provided me with the implementation of control systems skills needed to solve advanced engineering problems and to be successful in this role.

My current research at UniKL Mitec focuses on creating the dashboard system that combination with RFID tag and Visual Studio 2015 Software for factory production improvement. The objectives of this project is to design a product database management system using RFID and displaying the dashboard performance of product. The Dashboard will trigger and display the result in form of Chart, Graph, Meter and Tables to show the detail information of the products.

During my university internships, I dealt with a telecommunication industries and conducted network optimization on site build (indoor/outdoor) for clients. The experience allowed me to learn important skills and to develop the confidence needed to succeed in a competitive environment.

I believe that my knowledge and skills will help me contribute a great deal to your company. I look forward to meeting with you to discuss the position further. I can contacted at 013-4626551 and the following email address: [muhdikramazmi92@gmail.com](mailto:muhdikramazmi92@gmail.com)

I have enclosed my resume for your review. Thank you for your time and consideration.

Sincerely,

Muhamad Ikram bin Azmi
