Dear Sir or Madam,

10 April 2017

JOB APPLICATION FOR POSITION: SL1M - FIELD APPLICATION ENGINEER (RWNA ENGINEERING)

The above matter is referred as I am writing to apply for the said position or any other relevant position currently held vacant. Here, I enclosed my resume pertaining my qualifications and experience for your consideration.

2. My name is Nik Farhan Bin Nik Muhammad, a 24 years old graduate that has been awarded both diploma and degree majoring in industrial and applied chemistry respectively from University Technology MARA. My CGPA is 3.51.

3. I am interested to be part of your organization where i can fully utilize my skills and contribute to the success of the company and at the same time my individual growth. I can apply my knowledge along with my experiences and this is an excellent platform for me to join in as I can share my best innovative thoughts and connect with people from different backgrounds. I am also willing to relocate upon job offer.

4. Education wise, my major courses combines two main disciplines namely analytical chemistry and chemical engineering. I have been exposed to hands-on analytical techniques in analytical instruments such as Ultraviolet-Visible Spectrometer (UV-Vis), Gas Chromatography (GC), High Performance Liquid Chromatography (HPLC), and Infra-Red Spectroscopy (IR). The diversity of these courses enables me to be placed either in the laboratory/quality control unit or in the processing unit.

5. My expected salary is in the range of RM1500. Because of your company's strong reputation, I would be honoured if you can accept me to be a part of your company. Should you have any enquiries prior to my resume, please reach me at 016-5907863 or at nikfarhan90@gmail.com.

Thank you for your time and consideration.

Sincerely,

Nik Farhan Bin Nik Muhammad
