APPLICATION FOR SL1M- CNC MILLING MACHINISTS POSITION

Allow me to introduce myself briefly. I am student Faculty of Manufacturing in Bachelor of Manufacturing Engineering (Material) Hons. at University Technical Malaysia Melacca (UTeM) and have graduated in November 2016. Although, I am a fresh graduate and don't have any working experience pertaining to supervision regarding my course, I am confident that my education and experience makes me an ideal candidate for the position at your company.

In addition, I underwent two and a half months Engineering Practice at TQS Manufacturing Sdn. Bhd. Starting from 29/6/2015 to 4/9/2015. I was given the task by the supervisor and I have performed very well during the training. I have exposed my various managerial skills, attitude and practical knowledge. The Engineering Practice experience makes me realize that I have always wanted to pursue a career as an engineer in manufacturing industry within an international environment and I have been able to tailor my studies to that end.

I am a hardworking, responsible and precise person. I always plan and schedule my works which ensure all works done smoothly and Just In Time (JIT). I am also a fast learner and independent person. Besides that, I love to work under pressure because it makes me to be more orderly. Furthermore, I love and respect the people around me and I can work in a team and give and take orders, opinion or advice positively to improve myself. I believe my knowledge and technical know-how in the field of manufacturing engineering will help me contribute a great deal to my company. Above all, I possess the interest and determination to perform well in the position you are offering.

I'll be glad to attend an interview to furnish you with more details. I can be reached via e-mail [akmalzohid@gmail.com](mailto:akmalzohid@gmail.com) and also my contact number 017-5261172.

Thank you for your time and consideration.

Yours faithfully,

-----  
(MUHAMMAD AKMAL BIN MD ZOHID)
